EDUCATION:

Rutgers University, New Brunswick, NJ

Bachelor of Science in Finance

Rutgers Business School – New Brunswick

Expected Graduation: May 2028

Cumulative GPA: 3.9

Relevant Coursework & Certifications: Bloomberg Finance Fundamentals, Microsoft Excel, Micro and Macroeconomics, Introductory Statistics for Business, Computer Applications for Business, Introduction to Supply Chain Management, Intro to Marketing, Financial and Managerial Accounting

PROFESSIONAL EXPERIENCE:

IVOLATILTY/DATADRIVEN PORTAL

River Vale, NJ

Mortgage-Backed Securities (MBS) Financial Data & Analytics Intern

May 2026 - August 2026

Participated in the data-driven analysis and testing for a financial analytics company that leverages AI agent functionality along with its proprietary loan-level mortgage data to facilitate relative value trading and risk management so that the trading desk can interact with AI in plain English to make on the spot trading decisions for Mortgage-backed securities.

- Developed an AI agent for MBS analysis using LibreChat and Anthropic Claude Sonnet, including prompt engineering, agent skill development, and business validation
- Analyzed mortgage prepayments and credit performance using both traditional analytics and AI-driven tools, including S-curves, ramp curves, and time-series analysis
- Developed an understanding of fixed-income markets, valuation, and risk
- Modeled and priced MBS cash flows in Excel and Bloomberg under various interest rates, yields, spreads, and prepayment scenarios
- Co-authored LinkedIn newsletters exploring AI applications in mortgage markets, including articles on the [Prepayment Agent](#), [Mortgage Bond Agent](#), [Build Your Own Agent](#), & [Non-Agent vs. Agent AI](#)

ESHYFT

Howell, NJ

Product Operations and Analytics Intern

June 2025 – July 2025

- Led a project analyzing the effectiveness of outreach to churned employees, measuring impact on engagement and revenue, and assisted in a payroll initiative involving 401(k) options
- Supported the credentialing team in a Department of Labor audit
- Input and curated data into AI platforms to improve customer-facing performance and response quality
- Conducted in-depth data analysis with C-level management regarding company KPIs and attended cross-departmental meetings—including Development, Payroll, Finance, Data, and Project Management—to review performance metrics, discuss app features, and support strategic decision-making

HomeGoods

Paramus, NJ

Sales Associate

April 2024 – June 2024

- Assisted customers and supported store operations, including transactions, stocking, and maintaining a clean retail environment

INVOLVEMENT & LEADERSHIP:

JBIZ Club

February 2025 – Present

- Attend seminars led by successful business professionals on leadership, entrepreneurship, and ethical decision-making

Jiu-Jitsu Club
